THIS FLOPPY WILL WORK AS HARD AS YOU DO !

In the 1990's, small to medium sized construction companies, contractors and tradesmen must control their bottom line. What's needed is **OWL DEN ONE**, an affordable, easy-to-use computer software package that can manage and simplify all of your administrative job cycle tasks:

- Estimating
- Proposal Writing
- Job Budgeting
- Job Cost Tracking
- Accounts Payable
- Billing / Accounts Receivable
- Check Register
- Personnel & Information Management

OWL DEN ONE allows you to quickly and clearly identify the positive and negative trends within your jobs.

OWL DEN ONE's menu-driven software system is for those contractors who need full-featured solutions to their administrative problems, without becoming a full-time computer wizzard.

OWL DEN ONE easily installs on any IBM PC or 100% compatible system.

**OWL DEN ONE is backed by
90 days of free support.**

Call or write today! Find out how easy it is to invest in your bottom line!
