# OWL DEN ONE™

*The contract management software tool as indispensable as the tools of your trade.*

Use OWL DEN ONE for the professional edge in managing your company for *greater profitability and competitiveness* in the 90's!

With OWL DEN ONE you can build your estimates quickly and accurately. Once the project is awarded, the job budget can be built from the estimate. Costs and hours can then be tracked directly against the job budget. Using the knowledge of key costs and budget variances, you can become more competitive!

OWL DEN ONE is fast, flexible, easy to use and completely menu driven. Regardless of your computer or accounting experience level you can be up and running without specialized training!

**SUPPORT:** 3 Months FREE support

- Product Enhancements and Updates
- Support Persons to handle questions.
- Training sessions available.

**CAPACITY:** Limited only by available hard disk space in your computer.

- Active Jobs
- Database Entries
- Divisions per Job
- Items per Division
